

Before you Connect to New School WIFI (MAC)

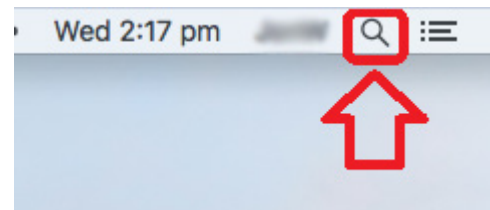

On Tuesday 23rd Feb 3pm, we will be resetting your Compass & Google account passwords. The new password will be the same for all systems (Compass & Google).

We are also changing the WIFI network that you connect to at school.

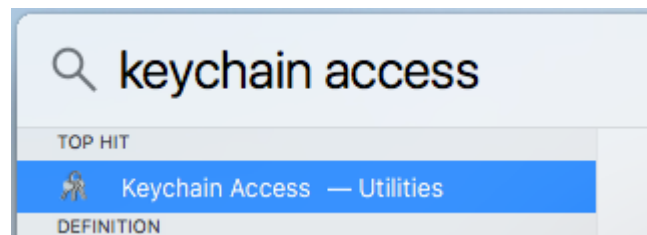

- Once your Student account password has been changed you will no longer be able to connect to LHS_STUDENTS WIFI
- You must Connect to **LHS_Unified** WIFI with your new login details at school

To ensure a smooth transition from old to new password please follow these steps on your Mac device:

1. Go to Search (magnifying glass icon) top right

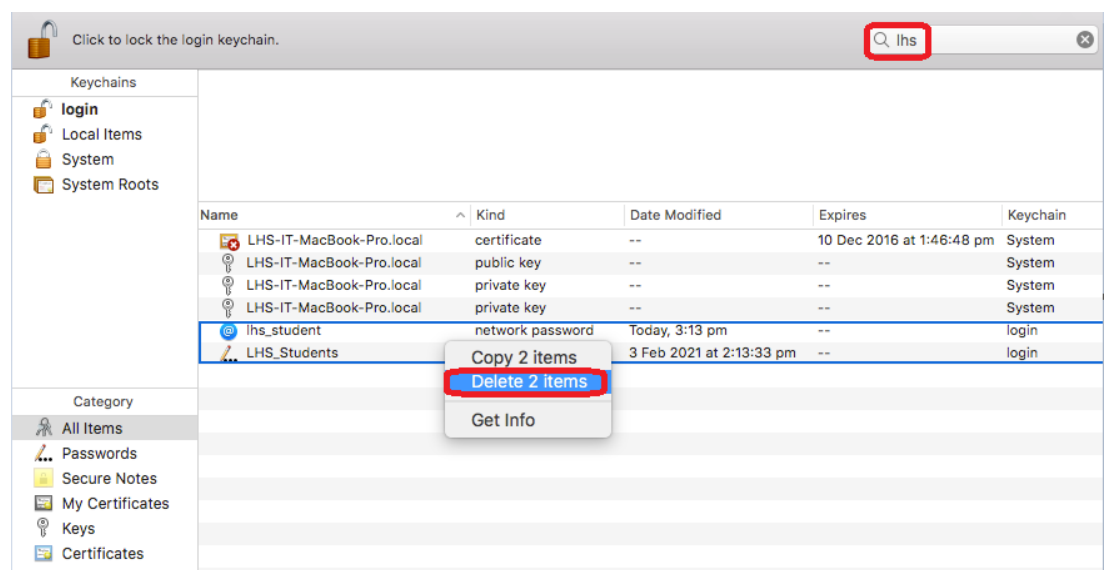

2. Search for “Keychain Access” and click on the shortcut

3. The Keychain App stores all your saved passwords and things that you connect to with your Mac. You will need to delete the old printers and LHS WIFI saved passwords.
 - a. Search for the following items and delete them from the Keychain
 - i. LHS_STUDENTS
 - ii. LHS_STUDENT

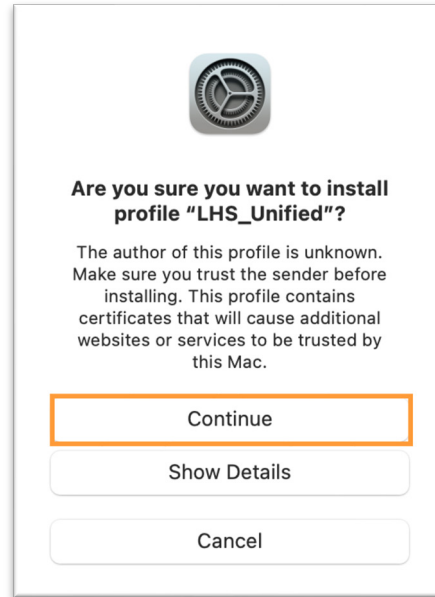

To delete items from the Keychain > Right click on the item and click Delete

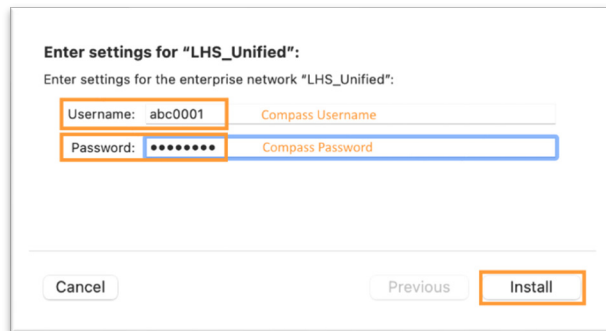

How to Connect MacBook School Wi-Fi for MacOS

<p>Download the MacBook Wi-Fi profile from the compass news article. Or click the link to the right.</p>	<p style="text-align: center;"><u>Profile Link</u></p>
<p>If you are asked to allow downloads from "cdn.lilydalehs.vic.edu.au" select "allow".</p>	
<p>Open the "Settings" app on your MacBook.</p>	
<p>Open the "Profiles" settings.</p>	
<p>Select "LHS_Unified" from the downloaded section and select "Install".</p> <p>Note: if "LHS_Unified" does not show up in the "Downloaded" area you may need to run the profile from your download directory.</p>	

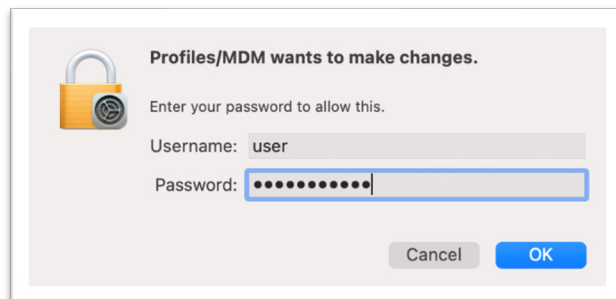

Select "Continue".

Enter your Compass username and password and select "Install".

Enter your MacBook password to confirm the profile installation and select "Ok".

Done. You have connected to Lilydale High School Wi-Fi network.
