

How to Install Printers on LHS Network For Students (WINDOWS)

Students can now install school-based printers on their BYOD (Bring your Own Device) devices without visiting the IT Support Kiosk. We are using software called Mobility Print that will facilitate your School printing.

To Install Mobility Print

1. [Click this link](#) to download and run the Mobility Print installer.
 - a. The file should be in your downloads folder once the download is complete.

2. Select “LHS_Student” as the printer from the list

3. Enter the following details:
 - a. Username:
Your Compass Username
(Your Compass username has letters followed by numbers, Eg; TEST001)
 - b. Password: Compass Password

4. Click “Finish” and your printer is installed and ready to use at school.
