

How to Install School Printers on BYOD macOS For Students

Students can now install school-based printers on their BYOD Mac (Bring your Own Device) devices without visiting the IT Support Kiosk. You must be at school & connected to the Student WIFI to complete this process.

1. Go to Apple icon > System Preferences

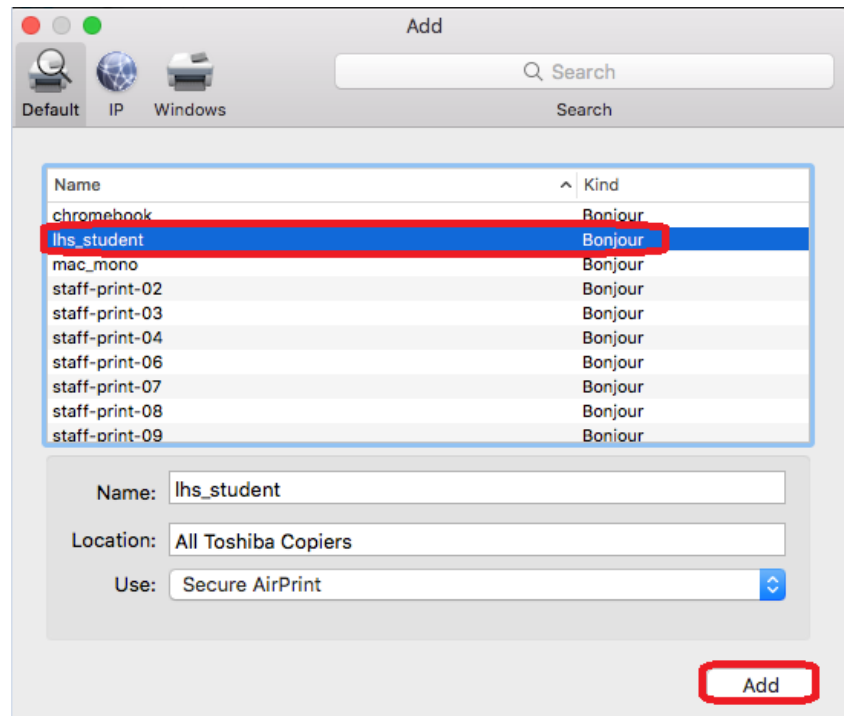

2. Select "Printers & Scanners"

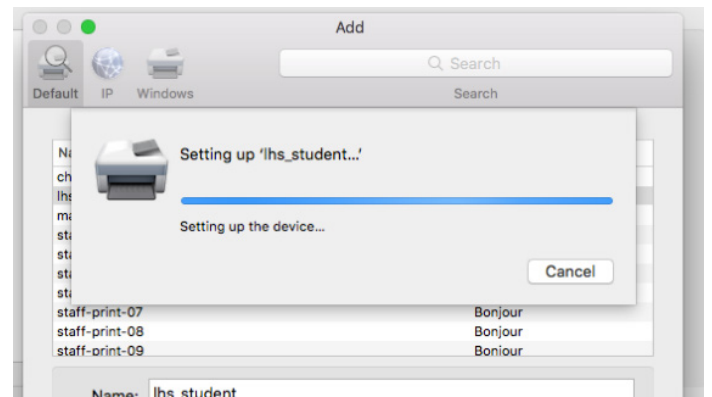

3. Click the + button

4. Select "LHS_Student" from the printer list > Then Click "Add"

5. Wait for the Printer to be setup on your device

6. When the printer is ready it will appear as "Idle" with a green dot

7. Send a print job to the LHS_Student printer and you see a login box pop up.

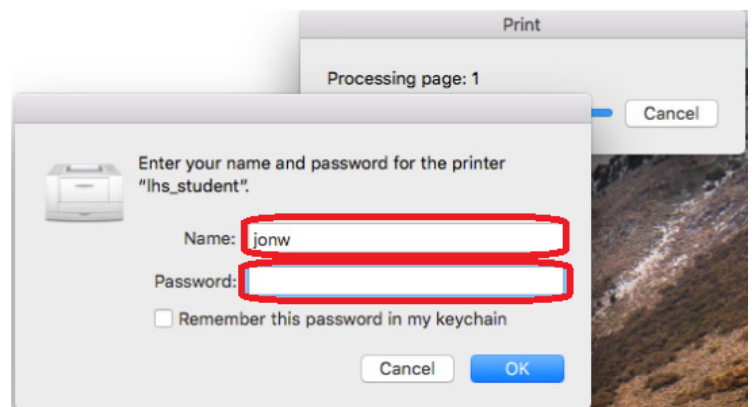

You must use the following:

Name: Compass Username

Password: Compass Password

Tick the box "Remember this password in my keychain"

Click "OK"

IF YOU DO NOT COMPLETE STEP 7 CORRECTLY YOUR PRINTING WILL NOT WORK
